Mrs. Paul Koch.

Last Monday morning the young
wife of Mr. Paul Koch of D'Hanis was
a victim of pneumonia. The couple
had made their home in Arizona, but
to escape the fearful spreading of the
Influenza there they decided to return
to their parents at D'Hanis. En route
to D'Hanis fever befell Mrs. Koch and
it developed into pneumonia which
caused her untimely death.

The funeral took place Tuesday at
11 a. m. in the new Cemetery in Hon-
do, Rev. A. Falkenberg officiating.
Mrs. Paul Koch, nee Auguste Wil-
helmine Hartung, leaves besides her
grief-stricken husband, 4 little children,
her mother, Mrs. Helene Hartung, two
sisters and one brother, and many
other relatives.

She was 26 years, 7 months and 24
days of age at the time of her death.

Arm Shot Off.

While duck hunting in the Rothe
pasture, above town Tuesday afternoon
Louis, the 16-year-old son of Mr. and
Mrs. Louis Heickmann of Somerset,
Texas, had the misfortune to lose his
left arm by the accidental discharge of
a shotgun. From the best information
we have been able to glean from the
many stories of the accident, it seems the
young man either carelessly or accident-
ally dropped the butt of his gun on a
rock with sufficient force to cause the
cartridge to explode, sending a load of
b. b. shot through his left arm about
four inches below the shoulder, terri-
bly lacerating the member. After
receiving the wound the young man,
aided by his companions, made his way
as quickly as possible to the Hondo-
Tarpney road for the purpose of sum-
moning surgical aid, the wounded
youth in the meantime becoming great-
ly exhausted from a profuse loss of
blood, his companions, in their excite-
ment, failing to improvise a tourniquet
to stop the flow. Fortunately—
and perhaps to this circumstance the
young man owes his life—Dr. Gipson,
who was returning from a visit to the
upper part of the county came along,
was hailed, and rendered first aid, and
accompanied the young man to town
and the arm was amputated just below
the shoulder. The victim is now rest-
ing well and there is but little doubt of
his ultimate recovery.

This is the first hunting accident of
the season, and while every one sym-
pathizes with the young man in being
maimed for life we are all thankful
that the mishap was not more serious.

FROM FOREST

TO OUR YARD

The lumber that reaches here
is a matter of skilled selec-
tion. Only the straightest and
soundest trees are selected for
our stock and only the most
perfect planks, etc., from
them are selected as good
enough to find a place here.
Consequently to buy lumber
here is to buy the best. We
have no other kind.

SOMEWHERE IN FRANCE.

Oct 14, 1918.

Dear Father, Mother and Sis:—

Just a few lines tonight to let you
all know that I am still all right and
getting along fine. I had a letter from
Rollie on the 10th and he had just come
off the front and was all right. I also
came off a couple of days ago and have
been traveling some since. I just want
to tell what a time we had yesterday.
We bought a big lot of beef, onions,
pickles, cheese, lunch tongue, bread
and two casks of beer and we went
out to the edge of the town and had a
grand old barbecue, and every body en-
joyed it very much.

Well, I am sending a Christmas cou-
pon. I don't know what you will be
able to send, but I thought that I
would send it anyway. If I don't get
anything I won't be disappointed. The
directions are on the coupon. Perhaps
we will be on our way back by then,
for the news in the papers sounds
good.

I bought a new fountain pen but it
doesn't write very good and you may
not be able to read these scratches.

I haven't had any mail for about 2
weeks but expect a few letters just as
soon as we get located again. I have
been writing every week and Rollie
said that he also wrote as often as he
could and from Oscar I haven't heard
in 3 weeks, they must have moved up
somewhere.

Well, I hope that all at home are en-
joying the best of health. Tell grand-
ma, aunt Jane and bunch, and all the
rest Hello for me.

Has Earl left New York? I don't
think that we will need him over here
if we keep those Fritz's on the move.

Well, I will close with love to all.
Write whenever you have plenty of
time.

SOLDIER EN ROUTE.

Camp Merritt, N. J.

Dear Homefolks:—

This is Sunday morning and I am
feeling fine. We had some trip of it.
Left last Sunday night at 8 o'clock
and got in here Friday night. We were
going day and night too. We stopped
about an hour a day to take exercise.
We stopped at some towns and marched
up and down the streets. It was rain-
ing all the time we were on our trip.

They fixed us up good before we left.
We had sleepers all the way and a
negro janitor to do our cleaning up.
The regulations were the same as if
we were in camp. We had some funny
boys with us.

We are in Camp Merritt, New Jer-
sey. This is seven miles from New
York. We had to come through New
York. Believe me, that is some place.
It is a little larger than our Texas
town. I saw the Statue of Liberty,
which is sure pretty. It is located ab-
out one hundred yards out in New
York Bay. We got a good view of it.

We came through Washington, D.C.,
at night, but I was awake when we
came through. I saw the Capitol all
lit up. That was another pretty place.
We crossed the Potomac river just be-
fore we came into Washington, D. C.
Della, we came around and about a
quarter of a mile from the city, we
went under it. The tunnel goes under
the Capitol. I saw the place in this
tunnel where President Wilson drives
up in his special car and steps into an
elevator which conveys him up into the
Capitol. I wish to goodness we could
have come through in the day time.

Now the city of Baltimore we didn't
see a thing of. We went into a tunnel
one mile from the city and went in un-
der it. This tunnel was 9 miles long.
At New Orleans we crossed the Mis-
sissippi river on a ferry. It was a mile
wide where we crossed. That is some
river. We came across there at night.
We passed all the important places at
night.

We went through thirteen states.
Believe me, we passed through some
country! I wouldn't give old Texas
for any of them. Virginia is some
state. Tobacco farms—I never saw
the like. The country was rolling and
hills, and all over these hills were to-
bacco farms. It looked pretty. I sent
Irene a tobacco leaf but it didn't smell
good. Della, I guess you heard dad
tell the story about a man falling out
of his farm? After I came through
Virginia I believe it.

Georgia was about the sorriest state.
Of course they have so many mines
and that's what makes the state so
important. We came right close to
the coal mines. I saw in Georgia the
Chain Mountains and the Blue Ridge.
They were pretty.

This was my first time to see girls
working in factories. They would

come to the windows, dirty and nasty
little girls. I felt sorry for them. I
saw women working in fields, riding on
plows and pulling corn. That was com-
mon. In Louisiana I never saw the
like of sugar cane. Take it all the way
through we had a nice trip.

We are right here next to the little
pond, but they had orders from across
the pond not to ship any more troops
until further notice. Everybody seems
to think up here that the war is over.
My! I hope so. I don't think we will
ever get to see the other side. Of
course, you can't tell. We might get
orders to go this afternoon and it may
be two weeks from now.

I have stood my oversea exam. all
O. K. We have all our clothes. Be-
lieve me, they gave us some clothes.
I don't think there is any danger of
getting cold, that is if we can get off
with all of it. Our shoes are enough
to weight us down.

I'm feeling fine these days. It has
been pretty cold for the last few days
but is getting warmer now.

Do you ever hear from Mervin and
Jeff? Write as often as you can, for
if they give me time I'm going to get
lonesome. I don't think I will come
home today, Della. Will just stay in
camp. Don't you think it would be a
good idea? We haven't had pay day
yet. Suppose we will get it this even-
ing. With love,

VOLNEY PETE S.

Overseas Boxes.

The time for sending boxes to the
boys overseas has been extended by
the government to November 31st, the
limit being one box to one soldier.
Anyone desiring to send a box that has
not received a label, can secure both
box and label by calling at the Red
Cross headquarters. As the time is
short those desiring to send boxes
should act promptly.

Beemen Attention.

The Medina County beemen and
ladies will meet at D'Hanis, Texas,
Sunday, November 24, at 2 to 6 o'clock
p. m. Very important, do not miss it.

Mrs. Ella Woolfs yesterday evening received a telegram from her son, Newell, telling her that he had been wounded in battle in France. He told her, however, not to be uneasy about him as his wound was not a serious one. This is conclusive evidence that the marines, one of the greatest fighting units of the United States army, took part in the final great battles of the war that forced the enemy to sue for peace.

In alighting from an automobile Tuesday afternoon, Mrs. Fletcher Davis sustained a dangerous fall which painfully lacerated her lips and bruised her about the face and head. While not dangerous, her wounds will keep her in her room for several days. The accident occurred on the Hondo-D'Hanis road near the O'Donnell place while she, Mrs. Louis Scherrer of Castroville and Misses Mollie and Lucile de Montel of Hondo were returning from the funeral of their uncle, the late Celeste Pingent, at Uvalde.

The annual election of officers for the Medina County Chapter, American Red Cross, was held Wednesday afternoon, November 20, 1918.

The Executive Committee elected for the ensuing year is as follows:

Messrs. D. H. Fly, O. Lacy, R. J. Reilly, Ed. Ney, Dr. B. R. Bradley; Mesdames T. McCaughery, B. R. Bradley, L. J. Brucks and Jno. A. Horger

The officers elected for the County Chapter from this committee, are:

Mr. D. H. Fly, chairman.
Mrs. B. R. Bradley, vice chairman.
Mr. R. J. Reilly, treasurer.
Mrs. T. McCaughery, secretary.

Mr. Fletcher, chairman of Castroville Auxiliary, also Mrs. Reasons, chairman of Lytle Auxiliary, were present and each gave a good report from their auxiliaries.

Mrs. Schmidt, chairman of Hondo Chapter, made a splendid report, showing twenty-three boxes shipped.

Miss Maria Inez Barrientes.

Miss Maria Inez Barrientes, daughter of Mr. and Mrs. L. Barrientes, died at the family home at 11:00 o'clock Wednesday night, her death resulting from pneumonia following an attack of influenza. Miss Barrientes was a native of Eagle Pass, having been born there April 20, 1898, and consequently had reached the age of 20 years and 7 months on the day of her death. She came to Hondo when a child with her parents and grew to comply young womanhood here, and was highly esteemed among the best of the Mexican citizenship of this section.

The body was shipped to Eagle Pass on Thursday night and will be interred in the Catholic cemetery of her childhood home, the Barrientes family being on the eve of returning to the border where they will again make their home.

The Barrientes family, who are not only esteemed by the Mexican people but by the American population as well, have the sympathy of every one in their bereavement.

Lutheran Church Notes.

A memorial service was held in the Lutheran Church last Sunday for Geo. Britsch who died as a hero for his country on the battle field in France on September 13, 1918. George Britsch was an excellent, good son to his parents and loved by all who knew him. He was a brave soldier and a picked sharp shooter. He was born July 8, 1895, being 23 years, 2 months and 5 days of age at the time of his sudden death. May he rest in Peace!

Thereafter was the ceremony, connected with the consecration of the service flag of our sons who are under arms in service for their country. The flag is decorated with 28 stars. Each one of our boys is marked with a star on the flag and all these boys have cheerfully responded to the call of their country. The dedication of this flag was a most impressive act and will be well remembered by all those present.

Mr. Xavier Wantz then was admitted and welcomed as a new member of the church, and Mr. and Mrs. Frank Westfall followed the example of Mr. Wantz.

Collections made by members of the Lutheran Church for the War Work Fund amount to about \$1,000.00.

Thanksgiving.

In compliance with the proclamation of the President of the United States and in gratitude to Almighty God for his many blessings during the last 12 months, the following services will be held at the Catholic Church on Thursday, November 28:

9:30 a. m. High Mass and Sermon; the Mass will be followed by Benediction of the Blessed Sacrament during which a "Te Deum" will be sung in thanksgiving for the victory of the American arms and for the coming of peace.

Be instant in prayer, watching in it with thanksgiving. Colos. IV, 2.
The public is cordially welcome.

Ford THE UNIVERSAL CAR

The Ford Model T one-ton truck is proving a splendid time and money-saver on the farm. It is very flexible in control, strong and dependable in service. It has really become one of

the farmers' necessities. One Ford truck is equal to half a dozen teams and it won't "eat

its head off" when not working. The very low price makes it popular with shrewd farmers who analyze conditions on the farm. Let's talk it over, Mr. Farmer. Price, without body, \$550 f. o. b. Detroit.

HAS A BIG JOB

G. S. Bilheimer.

G. S. Bilheimer of Denver, Colo., has been appointed Southern department campaign director for the next big drive for funds to continue the war work being done by the Red Triangle forces in the army camps of the United States and overseas, army Y. M. C. A., the Y. W. C. A., the War Camp Community Service, the Salvation Army, the National Catholic War Council, the American Library Association and the Jewish Welfare board.

Mr. Bilheimer is one of the foremost men in the Y. M. C. A. movement. He is a member of the international committee of the organization, a member of the National War Work council and a master organizer and executive. He successfully directed the last army Y. M. C. A. drive for the Southern department, comprised of Texas, Arkansas, Oklahoma, Louisiana, Arizona and New Mexico, and was unanimously chosen for the larger responsibility of the approaching campaign, during which the country will be called upon to support the Y. M. C. A. and other important war work agencies.

Mr. Bilheimer will be located at Dallas during the campaign period. He will have an able corps of assistants and specialists on his staff to carry out the various activities connected with a campaign of the magnitude of the forthcoming financial drive.

Mr. Bilheimer was chosen to direct the entire United War Work campaign for funds to finance the work of the seven war work agencies because of his successful experience and his unusual ability. His selection came direct from the New York headquarters of the consolidated campaign, with the solid approval of the people of the six Southwestern states, who are under his leadership, to furnish their part of the \$170,500,000 which the nation will be called on to contribute between November 11 and 18.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Sold by W. H. Windrow.

Shrinking From Death.
Is it quite fair to dub a man a coward because he is "afraid to die?" Death, the prospect of it, even when it lies many years ahead, makes many of us quake. What, then, of the death that the air, full of whining bullets, shells, bombs, grenades, holds? "All that a man hath will he give for his life" is very true, and to shrink from death is but human and natural.—London Tit-Bits.

Neuralgia of the face, shoulderst hands, or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Sold by W. H. Windrow.

The Heart Is Very Busy.
Your heart is a very busy organ. While you breathe once, it beats four times, says Popular Science Monthly. At each beat it sends four pounds of blood through your veins and arteries. The weight of the circulating blood is 29 pounds. When you run, your legs and the other parts of your body need more blood, so your heart must pump faster.

Put a porous plaster on the chest and take a good cough syrup internally if you would treat a severe case of sore lungs properly. Get the dollar size BALLARD'S HOREHOUND SYRUP. With each bottle there is a free HERRICK'S RED PEPPER POROUS PLASTER for the chest. Sold by W. H. Windrow.

MAIL CARRIER HAS OVERCOME TROUBLE AFTER THREE YEARS.

Hopes to Bring Same Benefit to Others Who Suffer—He Gained Twenty-five Pounds by Taking Tanlac.

"Yes sir, it's a positive fact, I have gained twenty-five pounds in weight and have been benefited so much that I think it is time for me to talk Tanlac for the benefit of others," said J. W. McBeth, postman for eleven years on Route 5, residing at 2428 Popular Str., Oklahoma City, Okla.

"Three years ago I began to weaken from what we said to be impoverished blood and I continued to go down. My appetite was very poor and what I ate gave me no nourishment. I lost weight until I fell off some thirty pounds. I got so nervous and worried and down hearted that I couldn't eat, sleep or work on account of my condition. I was just about out of commission when I decided to try Tanlac.

"I began to build up in a short time after I started on my first bottle. My appetite returned in full force. I can now eat as hearty as anybody and feel stronger and better than I have since my troubles began. When I saw that Tanlac was doing me good, I kept on taking it until now I feel like a new man. I sleep as sound as a baby every night, make my twenty-six mile trip every day and never feel tired. I am so glad I have regained my health that I want to tell everybody about Tanlac."

Tanlac is sold in Hondo by W. H. Windrow.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, invigorate the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything else, why not Cardui? ... I did, and soon saw it was helping me. After 12 bottles, I am strong and well."

TAKE

CARDUI The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

SPANISH INFLUENZA

Do Not Fear When Fighting a German or a Germ!

By Dr. M. COOK.

The cool fighter always wins and so there is no need to become panic-stricken. Avoid fear and crowds. Exercise in the fresh air and practice the three C's: A Clean Mouth, a Clean Skin and Clean Bowels. To carry off the poisons that accumulate within the body and to ward off an attack of the influenza bacillus, take a good liver regulator to move the bowels. Such a one is made up of May-apple, leaves of aloë, root of jalap, and is to be had at any drug store, and called "Pleasant Purgative Pellets."

If a bad cold develops, go to bed, wrap up well, drink freely of hot lemonade and take a hot mustard foot-bath. Have the bedroom warm but well ventilated. Obtain at the nearest drug store "Anuric Tablets" to flush the kidneys and control the pains and aches. Take an "Anuric" tablet every two hours, together with copious drinks of lemonade. If a true case of influenza, the food should be simple, such as broths, milk, buttermilk and ice-cream; but it is important that food be given regularly in order to keep up patient's strength and vitality. After the acute attack has passed, which is generally from three to seven days, the system should be built up by the use of a good iron tonic, such as "Ironite" tablets, to be obtained at some drug stores, or that well known blood-maker and herbal tonic made from roots and bark of forest trees—sold everywhere as Dr. Pierce's Golden Medical Discovery.

Mr. and Mrs. Emil Schott of Red Wing were here Monday.

Chamberlain's Cough Remedy.

Do not imagine that because other cough medicines failed to give you relief that it will be the same with Chamberlain's Cough Remedy. Bear in mind that from a small beginning this remedy has gained a world wide reputation and immense sale. A medicine must have exceptional merit to win esteem wherever it becomes known.

Don't forget the Dance at Castroville. Come one, come all! A good time assured.

In Memory of Amos Rothe.

Amos Rothe, a D'Hanis boy so true, Who was ready to fight for his country, the red, white and blue.

The call had sounded clear and true, And rang all this great land through. He was a man who loved his nation, grand, And sprang to fight for Uncle Sam.

He was a strong, bright, healthy boy And was always ready for great joy. But when his country's call sounded loud and clear, He sprang for the uniform with great cheer.

He, with five other boys Joined the colors with great joy.

But he, out of the six, was the first to give his life, so grand, That ever might the Lone Star stand.

He did not fight on the battle field, But still he was ready at any deal.

If his country had told him to go to France He would have at once advanced.

Amos was a true D'Hanis boy, But the Hondo people knew and loved him with great joy.

They didn't only love him because he was true, But because he was a volunteer for the red, white and blue.

Peaceful be thy silent slumber, Peaceful in thy grave so low, Thou no more will join our number. Thou no more our sorrow know. Yet, again we hope to meet thee When the day of life is fled, And in Heaven with joy to greet thee Where no fare-well tears are shed. A. M.

Greatly Benefited by Chamberlain's Tablets.

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

DAVIS SAYS COST OF GROWING COTTON IS 35 CENTS PER BALE

Only a small number of Corpus Christians heard Fletcher Davis and J. C. Hestland, of the Agricultural Department last night. The message to be brought by those two speakers is of great importance to the farmers and business men. On the trip through this section they will address large crowds of farmers near their homes. The importance of feeding the hog will be emphasized by Mr. Hestland. Not the production of great numbers will be urged, but that each family keep one hog and feed him according to the rules laid down by specialists in this line is a point made by Mr. Hestland, who has been a practical farmer for many years.

The interview with Mr. Davis which follows is of more than ordinary interest just now when cotton is the staple crop of this country.

In an interview with the Times representative, Mr. Fletcher Davis, Rural Organizer and Lecturer for the Farmers' Institute Division of the State Department of Agriculture, said:

"Students of rural economics as they apply to the South have long wondered at some of the economic and social conditions that prevail in this vast domain. Notwithstanding the fact that we enjoy almost a world monopoly in the production of a most needful world commodity—cotton—the worn-out and abandoned farms in the older sections, the bad roads, the tumbling down churches, the dilapidated and poorly equipped school houses, the squalid homes, and the other evidences of a lack of prosperity that are everywhere too conspicuous, are a reproach to us and proof positive that something is and has long been radically wrong.

"A very casual study of the production and distribution of our cotton crop will enable us to locate at least the partial cause for these conditions. A study of the costs of production and a comparison with average sale prices discloses the startling fact that for a number of years we have sold our cotton crop at below the average cost of production. Until we correct this mistake and realize a reasonable and fair profit on the products of our toil our conditions must continue to grow worse instead of better.

"From the most reliable data available, it is estimated that it has cost Texas an average of 35 cents a pound to produce every pound of cotton grown this year. Therefore, in justice to his fellow planters no cotton producer, regardless of whether favorable conditions and large yields have enabled him to produce his cotton at a cost below that average, should part with a pound of it for less than a minimum price of 35 cents. If he can not store and finance it himself until the demands of trade and manufacture will take it at this price let him avail himself of the facilities of the State Bonded Warehouse and the Federal Reserve Bank to do so. The commonest grades of cotton goods are selling at from 65 to 85 cents per pound, leaving a tremendous margin between the present price of raw cotton and the manufactured article. The consumers of cotton goods are going to pay 85 cents per pound and then some. The question is into whose pockets is it going?

"I am informed that Nueces County will produce a 40,000 bale cotton crop this season. Sold at 35 cents per pound it will bring to the producer \$7,000,000—and the consumers will pay more than that. Sold at 26 cents per pound, the price some northern Congressmen are wanting the government to fix on it, it would bring \$4,000,000. This \$3,000,000 in the pockets of the producers would mean the liquidation of old accounts, the deposit of more funds in the banks, and a better show of patriotism in the matter of thrift stamp and Liberty bond investments on the part of the cotton farmers."—Corpus Christi Times, Sept. 3, 1918.

About Croup.

If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for croup, and it is important that you observe the directions carefully.

Sick Headache.

This distressing disease results from a disordered condition of the stomach and can be relieved by taking Chamberlain's Tablets.

I Owe My Life to PERUNA

Mr. McKinley's letter brings cheer to all who may be sufferers as he was. Read it:

"I can honestly say that I owe my life to Peruna. After some of the best doctors in the country gave me up and told me I could not live another month, Peruna saved me. Travelling from town to town, throughout the country and having to go into all kinds of badly heated stores and buildings, sometimes standing up for hours at a time while plying my trade as auctioneer, it is only natural that I had colds frequently; so when this would occur I paid little attention to it, until last December when I contracted a severe case, which, through neglect on my part, settled on my lungs. When almost too late, I began doctoring, but, without avail, until I heard of Peruna. It cured me; so I cannot praise it too highly."

It Cured Me

Sleep and Rest.

One of the most common causes of insomnia and restlessness is indigestion. Take one of Chamberlain's Tablets immediately after supper and see if you do not rest better and sleep better. They only cost a quarter.

INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for biliousness. Sold everywhere at 25c.

What Would You Do?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and every one should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar.

Aircraft Standardized.

It is less than a score of years since the first heavier-than-air machine successfully carried a passenger into the air. It is less than 15 years since the art of controlling such a craft was imparted by the inventor to another, yet today aircraft have been standardized and factories turn them out with the ease that motorcar builders produce their product.

Clever Youngster.

A little fellow whose father is connected with a railroad has picked up many railroad phrases. One day while waiting with his mother in a large station the youngster rode about on his little cart. Suddenly a man blocked the little rider's way. The latter, lustily shouting "low bridge," passed safely between the man's legs.

Of course baseball will come back strong, but just at present the public isn't perspiring in eagerness.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion
for a few cents.

The juice of two fresh lemons strained
into a bottle containing three ounces of
orchard white makes a whole quarter
pint of the most remarkable lemon skin
beautifier at about the cost one must
pay for a small jar of the ordinary cold
creams. Care should be taken to strain
the lemon juice through a fine cloth so
no lemon pulp gets in, then this lotion
will keep fresh for months. Every
woman knows that lemon juice is used
to bleach and remove such blemishes as
freckles, sallowness and tan and is
the ideal skin softener, whitener and
beautifier.

Just try it! Get three ounces of
orchard white at any drug store and
two lemons from the grocer and make up
a quarter pint of this sweetly fragrant
lemon lotion and massage it daily into
the face, neck, arms and hands.

COTTON BALE IS FARMER'S STOCK.

To Refuse to Sell for Less Than Cost Is Good Business.

Wortham, Texas, Oct. 5.—Fletcher Davis, Field Agent of the State Department of Agriculture, told an audience of Wortham farmers in a lecture at the tabernacle here this afternoon, that if he went to a merchant in this town and asked for a piece of cotton shirting the merchant would quote him such a price as would cover the cost to the merchant of placing the goods on the shelf, plus a reasonable profit. If the price suited him, he would pay it; if it did not he would go elsewhere to supply his wants. He would not go out and start the report that the merchant is holding shirting. So it is with any other article of merchandise.

The cotton bale as it comes from the gin is the farmer's stock in trade; it has cost him 35 cents a pound this year to put the finished bale in the cotton yard; and to refuse to sell it for less than a profit is to practice the same correct business principles that make the successful merchant successful. To sell it for less is to follow methods that will bankrupt, and it is to play into the hands of the futures speculators who for many years have manipulated the market so that the farmer has sold at a price below cost of production and has suffered poverty for it as a consequence where wealth and prosperity should have been his portion instead.

The speaker counseled steadiness of purpose and united, concerted effort on the part of all to secure for the farmer at least cost of production for this year's crop.

Farmers here are showing a determination to stay with their demand for 35 cents and comparatively little of the crop has been sold so far.

RABBITS

There is a movement throughout the United States at this time to breed rabbits for the purpose both of increasing the meat supply, which is daily growing less, and to help the production of furs, which is also on the decrease.

It is remarkable how much a man may do with rabbits in his own back yard and with comparatively very little trouble. Of course, if he wishes to succeed in raising rabbits, or anything else, he must first equip himself with the knowledge of what to do; but the knowledge necessary to be successful does not require much time to acquire. He must know how to feed them, how to see that their boxes are kept clean and sanitary; but when these few details are attended to, the rabbits do the rest. As to feeding, they may be fed in the morning and in the evening, so that they really require absolutely no care in the day time.

C. P. Gilmore, who went to California to get well, took up rabbit raising on a small scale as a pastime. His neighbors laughed when he finally declared that he would make a business of it. Now he has one of the finest farms in California, has won many prizes for his New Zealand Reds, and has made a competency out of the business.

There is no doubt that this country faces the necessity of producing more meat. Not only have the war drains been severe, but the exceptional winter has made great inroads in our herds of cattle. We face the necessity of doing something, and rabbits furnish a large quantity of meat and a kind of meat that most people like better than chicken. There is much more meat on a rabbit than on a chicken, and the rabbit, properly attended to, eats only clean food. Who knows but what the rabbit may save the country as the goose saved Rome. It is the part of wisdom as well as of patriotism to encourage the raising of rabbits.

Rabbits are one of the most profitable sources from which such increase may come. It is also the source which, above all others, can be expanded most rapidly. The rabbit yields meat that contains more than 80 per cent digestible nutriment, and that is higher in food value than any other meat.

Rabbits are easy to raise, because the mother doe nurses the young and takes care of them until they wean the litter. The litter may be weaned when from four to six weeks old, and all that is necessary is to take them away and place them in a separate hutch, and feed them on oats, bran and any kind of hay.

Rabbits will eat almost any kind of scraps from the kitchen table, including parings from vegetables, stale bread and other waste; therefore from six to thirty rabbits may be raised from the refuse of the kitchen which now goes into the garbage can.

To those who do not care to eat rabbits there is a market at a fair price for every pound, and by spending up during the year 1918 thousands of pounds of beef, mutton and pork could be saved during the year.

With an outlay of \$15 one can start a very respectable rabbit farm which will, in the end, beat the meat trust at its own game, supplying the owner with a delicious table delicacy and in addition give the opportunity of wearing good furs in winter, for the rabbit as a fur-producing animal is now recognized and many of the furs now seen on the streets are produced from the humble rabbit.

A good buck and three or four healthy brood does should be procured, and if properly fed and managed they should be made to produce three or four litters per year, which would result in at least 36 youngsters at the end of the year. At the end of the first seven months at least six out of the first litter may be bred, and again on the tenth month, yielding the considerable number of 40 additional youngsters. In terms of pounds, this would mean 500 pounds of delicious meat produced from the original stock purchased.

SUGAR RATION INCREASED FROM TWO TO THREE POUNDS

The rapid manufacture of the new crop belt sugar in the West, and new crop sugar in the South, together with the freer railway transportation conditions, the reductions that the American people have made in the consumption of sugar, in the manufacture trades, and the patriotic conservation in the past four months, enables the United States Food Administration to increase the household allowance of sugar from two pounds per person per month to three pounds per person per month, with the same ratio to public eating places, effective November 1.

This makes good the promise of the Food Administration to increase the household allowance of sugar at the earliest possible moment that our supplies would justify, and make it possible for the householder to more freely use the apple, cranberry and grapefruit products, and to use the fruits canned during the summer without sugar.

The regulations are also revised to the extent that any person may purchase his whole monthly allowance at one time, if he so desires; that is, any family may purchase a month's supply for the entire family in one purchase from the retail trade.

STEADIER HOG MARKETS PLANNED

Hog Producers and Packers Confer With Representatives of the Food Administration and Agricultural Department and Adopt New Plan of Regulation.

In accordance with the policy of the Food Administration since its foundation to consult representative men in the agricultural industry on occasions of importance to special branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing foreign pork purchases.

The conclusions of the conference were as follows:

The entire marketing situation has changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current peace talk has alarmed the holders of corn, and there has been a price decline of from 25 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders. This decline has spread fear among swine growers that a similar reduction in the prices of hogs would naturally follow. Moreover, the lower range of corn prices would, if incorporated in a 13-to-1 ratio, obviously result in a continuously falling price for live hogs. In view of these changed conditions many swine producers anticipated lower prices and as a result rushed their hogs to market in large numbers, and this overshipment has added to and aggravated the decline.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 8 per cent, while the highest unofficial estimate does not exceed 15 per cent. Increased production over last year. On the other hand, the arrival of hogs during the last three weeks in the seven great markets has been 27 per cent. more than last year, during the corresponding period, demonstrating the unusually heavy marketing of the available supply. In the face of the excessive receipts some packers have not maintained the price agreed last month. On the other hand, many of the packers have paid over the price offered to them in an endeavor to maintain the agreed price. The result in any event has been a failure to maintain the October price basis determined upon at the September conference and undertaken by the packers. Another factor contributing to the break in prices during the month has been the influenza epidemic; it has sharply curtailed consumption of pork products and temporarily decreased the labor staff of the packers about 25 per cent.

The exports of 120,000,000 pounds of pork products for October compared with about 52,000,000 pounds in October a year ago, and the export orders placeable by the Food Administration for November, amount to 170,000,000 pounds as contrasted with the lesser exports of 68,000,000 for November, 1917. The increased demands of the allies are continuing, and are in themselves proof of the necessity for the large production for which the Food Administration asked. The increase in export demands appears to be amply sufficient to take up the increase in hog production, but unfavorable market conditions existing in October afford no fair index of the aggregate supply and demand.

It must be evident that the enormous shortage in fats in the Central Empires and neutral countries would immediately upon peace result in additional demands for pork products which, on top of the heavy shipments to the Allies, would tend materially to increase the American exports inasmuch as no considerable reservoir of supplies exists outside of the United States. It seems probable that the present prospective supplies would be inadequate to meet this world demand with the return to peace. So far as it is possible to interpret this fact, it appears that there should be even a stronger demand for pork products after the war, and therefore any alarm of hog producers as to the effect of peace is unwarranted by the outlook.

In the light of these circumstances it is the conclusion of the conference that attempts to hold the price of hogs to the price of corn may work out to the disadvantage of pork producers. It is the conclusion that any interpretation of the formula should be a broad gauged policy applied over a long period. It is the opinion of the conference that in substitution of the previous plans of stabilization the Live Stock Subcommittee of the Agricultural Advisory Board, together with the specially invited swine representatives, should accept the invitation of the Food Administration to join with the Administration and the packers in determining the prices at which, controlled export orders are to be placed. This will be regularly done. The influence of these orders will be directed to the maintenance of the common object—namely, the stabilization of the price of live hogs so as to secure as far as it is possible fair returns to the

Livestock Subcommittee of the Agricultural Advisory Board, together with special swine members and the representatives of the packers, to improve the present unsatisfactory situation, which has unfortunately resulted because of the injection of uncontrollable factors.

We ask the producer to co-operate with us in a most difficult task.

The members of the Conference were:

Producers—H. C. Stuart, Elk Garden, Va., Chairman Agricultural Advisory Board; W. M. McFadden, Chicago, Ill.; A. Sykes, Ida Grove, Ia.; John M. Eyward, Ames, Ia.; J. H. MILK

MILK SUPPLY DEPENDS ON DAIRYMEN UNITING ON THE MARKETING OF PRODUCT

A shortage in the supply of milk has been apparent for some time in Texas, and the Food Administration has observed the question of decreased milk supply with great concern. Certain factors, however, entered into the shortage which could not be met: First, a world shortage in feedstuffs and a consequent premium for feed; second, a shortage of labor due to labor conditions and heavy drafts upon the dairy industry by war industries and the military.

The government alone took over 85 per cent of the evaporated and condensed milk for the military. This gigantic order threw a heavier burden upon the distributors of milk and shortages have developed in many districts, due to the reduction in the use of canned milk, when the actual supply of local milk has not been altered.

Administrator Peden, believing that scarcity of feed and a depletion of the ranks of dairy labor by war industries and the military were the chief elements responsible for the shortage in the supply, felt it best to leave the matter with the consumers and the dairies to adjust, but complaints have become so general and the fact established that children and babies needing milk are undergoing hardship because of a lack of it, he determined upon a statewide inquiry.

Reports from the sixteen District Administrators, with headquarters in the principal cities of Texas, indicate that the situation is less acute in East Texas than in South, West and North Texas. The general report is that the shortage and high price of feedstuffs is a dominant factor; next that of labor; third, complex, instead of concentrated systems of delivery; fourth, the normal decrease in the milk supply during the winter months due to dairy cows becoming dry; fifth, discouragement of many dairymen because of increasing regulation of their industry by health departments and a hesitancy to adapt themselves to the changing order.

Holding the view that the problems of the dairymen are in common over the State, and with the purpose of making local experiments in order to decide just what the situation is at large over Texas, Administrator Peden, jointly with Mayor A. E. Amernan of Houston, called a conference of dairymen of Harris County in Houston on October 22.

The principal suggestion growing out of the conference was that the dairy industry should organize locally to study and best develop the industry, instead of following an antiquated program of distribution; that when the issue of feed is involved it might be thoroughly taken up with the distributors of feedstuffs, arrangements be made for standard grades and dependable deliveries, and a lot of lost motion be permanently eliminated.

The Houston conference indicated very clearly that the larger cities of Texas must sooner or later come to the distribution of milk through the large distributors and the complex and duplicate deliveries, not excepting their uncertainty, must give way to a method under municipal regulation. Indications, too, pointed to the fact that inspection of milk, pasteurization of milk, the safeguarding of the consumer must be taken into account as a procedure which sanitation and health demand be increased rather than diminished, and that the dairymen must move forward with progress.

Organization of the dairymen, adaptation to the sanitary code, co-operating with each other in the marketing of their product, and joint arrangement for their feedstuffs, joining hands in developing their dairies and plants, and moving forward with the times is the only answer to the question: How shall the milk supply be increased, and how shall the dairymen get a decent livelihood out of it?

AMOUNT OF FAT IN CREAM FOR RETAILERS AND CONSUMERS RESTRICTED TO 25%

Rule One, Special License Regulations 22 have been amended by wire from Washington, as follows:

"No licensee of the Food Administration shall sell sweet cream which contains more than 25 per cent butter fat to consumers or retail distributors of cream, provided that this rule shall not prevent the licensee from selling sweet cream containing more than 25 per cent to manufacturers for manufacturing purposes."

A QUIET PLACE TO READ

This Red Triangle man has charge of a "Y" hut near the front in a chateau. When Fritz takes a notion to drop shells in, around, near, over the chateau the place is not very well patronized by the soldiers. It gets lonesome for the "Y" man and he decides it is a good time to take a chapter from his Bible. So he seeks out some quiet (?) place—say a dugout where he can read in peace. A "Y" man has to have his rest like anyone. Then who can blame him for finding a secluded, comfy dugout where to hang up his tin hat and take a fifteen minutes' vacation?

"THE SUNSHINE DIVISION"—WOMEN'S ARMY

The "Sunshine Division" is the name of a newly organized "army," made up of women who want to help win the war. The idea originated during the recent concert tour of army camps made by Margaret Woodrow Wilson, the president's daughter. As the name indicates, the new army has a special responsibility for strengthening the

morale of the soldiers at home overseas, thereby contributing to the success of the American allied arms. A plan is being made to enlist women in every community to become soldiers in the "Sunshine Division," their services not necessarily taking them away from home. Particulars may be had from one of the sponsors of the idea, Maj. A. P. O. now stationed at Southwestern building, Dallas, Tex.
